PRODUCTS			2022
SAFE, GREEN & CONNECTED SOLUTIONS			
Develop advanced technologies that save lives, reduce emissions and enable seamless connectivity	Innovate ADAS solutions that lower total cost of ownership and meet or exceed the most stringent regulatory and rating agency targets, through a next-gen ADAS platform that optimizes cost through maximum reusability	Safe: Aptiv revenue \$ generated on active safety platforms	\$2.0B
	Provide multi-modal human-machine interface solutions that reduce driver distraction and improve convenience when interacting with the vehicle (e.g., driver monitoring systems, gesture recognition, child presence detection)	Safe: Aptiv revenue \$ generated on user experience platforms	\$1.9B
Enable high-voltage electrification and fast charging	Help drive consumer adoption of electric vehicles by delivering next-gen electrical architectures that enable fast charging and are optimized to reduce size and weight while simplifying manufacturing	Green: Aptiv revenue \$ generated on high-voltage electrification platforms	\$1.2B
	Develop transformative, sustainable architecture that enables feature-rich, highly automated, electrified vehicles of the future		
Drive OTA capabilities with SVA™	Enable over-the-air updates across our platform solutions	Connected: % of OTA-updatable ADAS, UX and Body platforms	21%
	Innovate and deliver highspeed data connectivity solutions		
PRODUCT QUALITY			
Develop and deliver reliable products and solutions with expected levels of performance	Meet and exceed customer quality and service requirements for quality, delivery, warranty and project execution as measured in Voice of the Customer scorecards	% of manufacturing and major technical sites with IATF 16949 certification	100%
		Warranty expense as a % of annual revenues	0.27%
CUSTOMER SATISFACTION			
Continue to be our customers' partner of choice by delivering industry-leading products and solutions	Conduct annual Voice of the Customer survey	Number of Voice of Customer surveys sent	1,200+ customer contacts

About This Report

This report contains information about Aptiv's financial and nonfinancial results that are not presented in accordance with Generally Accepted Accounting Principles (GAAP). Specifically, environmental (i.e., CO₂e emissions, water consumption and waste disposal), workforce, community involvement, product quality and governance metrics are nonfinancial, non-GAAP measures.

This report has been prepared in accordance with the GRI Standards (Core option), the SASB standard, and TCFD recommendations. Unless otherwise noted, all data is as of December 31, 2022, and references to currency are expressed in U.S. dollars (USD). The scope of the environmental and social metrics included in this report represent at least 75 percent of Aptiv's total revenue.

New acquisitions are included in this report within three years from the date of acquisition. Prior-year comparatives and base-year figures are not updated nor restated for changes in emissions factors, subsidiary acquisitions or disposals of subsidiaries.

FORWARD-LOOKING STATEMENTS

This presentation, as well as other statements made by Aptiv PLC (the "Company"), contain forward-looking statements that reflect, when made, the Company's current views with respect to current events, certain investments and acquisitions and financial performance. Such forward-looking statements are subject to many risks, uncertainties and factors relating to the Company's operations and business environment, which may cause the actual results of the Company to be materially different from any future results. All statements that address future operating, financial or business performance or the Company's strategies or expectations are forward-looking statements. Factors that could cause actual results to differ materially from these forward-looking statements include, but are not limited to, the following: global and regional economic conditions, including conditions affecting the credit market; global inflationary pressures; uncertainties posed by the COVID-19 pandemic and the difficulty in predicting its future course and its impact on the global economy and the Company's future operations; uncertainties created by the conflict between Ukraine and Russia, and its impacts to the European and global economies and our operations in each country; fluctuations in interest rates and foreign currency exchange rates; the cyclical nature of global automotive sales and production; the potential disruptions in the supply of and changes in the competitive environment for raw material and

other components integral to the Company's products, including the ongoing semiconductor supply shortage; the Company's ability to maintain contracts that are critical to its operations; potential changes to beneficial free-trade laws and regulations, such as the United States-Mexico-Canada Agreement; changes to tax laws; the ability of the Company to integrate and realize the expected benefits of recent transactions; the ability of the Company to attract, motivate and/or retain key executives; the ability of the Company to avoid or continue to operate during a strike or a partial work stoppage or slowdown by any of its unionized employees or those of its principal customers; and the ability of the Company to attract and retain customers. Additional factors are discussed under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in the Company's filings with the U.S. Securities and Exchange Commission. New risks and uncertainties arise from time to time, and it is impossible for us to predict these events or how they may affect the Company. It should be remembered that the price of the ordinary shares and any income from them can go down as well as up. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events and/or otherwise, except as may be required by law.
